Football, known as soccer in some regions, is the world's most popular sport. This guide provides clear, concise answers to common questions about the game, its rules, history, and culture.

Frequently Asked Questions

1. What is the basic objective of football?

The objective is to score more goals than the opponent by moving the ball into the opponent's net using any part of the body except the hands and arms (except for goalkeepers within their penalty area).

2. How many players are on a football team?

Each side fields 11 players: 10 outfield players and 1 goalkeeper. Substitutions are allowed, typically three per match in most competitions.

3. What are the dimensions of a standard football pitch?

- Length: 100–110 m (110–120 yards)
- Width: 64–75 m (70–80 yards)
- The dimensions may vary slightly for youth or informal play.

4. What is a "free kick" and how does it work?

A free kick is awarded after a foul.

- **Direct free kick**: a goal can be scored directly.
- **Indirect free kick**: the ball must touch another player before a goal counts.

The ball must be stationary, and opponents must be 10 yd (9.15 m) away until the kick is taken.

5. How long is a standard football match?

- Two halves of 45 minutes each.
- Additional stoppage time (usually 1–5 minutes per half).
- If tied in knockout stages, extra time (two 15-minute halves) may follow, and then a penalty shoot-out if still level.

6. What constitutes a “handball” offense?

A handball is when a player deliberately touches the ball with the hand or arm, or the ball rebounds off a hand/arm that was in an unnatural position. Intent, contact, and the ball's trajectory are all considered.

7. How is a penalty awarded?

A penalty is given when a defender commits a direct free-kick foul inside their own penalty area. The ball is placed on the penalty spot (11 m from the goal line) and only the goalkeeper may guard the goal.

8. What is the offside rule?

A player is in an offside position if, at the moment the ball is played, they are nearer to the opponent's goal line than both the ball and the second-last defender, and they are actively involved in play. Being offside is only penalized if the player interferes with play.

9. How many substitutions are allowed in a match?

Domestic leagues typically allow three substitutions. Cup competitions may permit a fourth substitution in extra time. Some tournaments have adopted a “five-substitution” rule for health and safety reasons.
